	Para Educator Training Program					

Contact: Carol Brewer, 253.680.7232, cbrewer@bates.ctc.edu

The Paraeducator Training Program is a statewide, distance-learning opportunity for individuals currently working as paraeducators—or those wishing to enter the field.

This is a video based course. Students can earn 100-level college credit at home with the convenience of scheduling course work around job and family. There are no registration deadlines. Students can register by phone at any time. Tuition includes everything needed to complete the course.

Courses are designed to address the Washington State Core Competencies for Paraeducators. The program is funded in part by a grant from the Washington State Office of Superintendent of Public Instruction (OSPI).

An evening program designed for those working in the field or those preparing to work in the field. Students enroll in one course per quarter (for three quarters) that address topics in foundations of learning, strategic learning, and effective instruction. These courses cover twelve of the Washington State competencies for paras. Each quarter includes a minimum of ten hours of "field experience". In addition, students must complete at least 18 hours in computer applications. Students who do not have two year degrees complete a basic skills assessment their first quarter in classes and complete the "Preparation for the Paraeducator Assessment" course at the end of their coursework. Remedial assistance for course participants is available in the college's Learning Center.

**CERTIFICATE REQUIREMENTS

CENTRALIA COLLEGE

Continued

ESD 113 has approached Centralia College about development of specific courses for paraprofessionals in math and literacy.

Apprenticeship program developed with Labor and Industries, the school district and the public employees union. The school district pays the tuition of \$21.00 per credit.

**PARAEDUCATOR PROGRAMS
IN WASHINGTON COMMUNITY & TECHNICAL COLLEGES**

CLARK COLLEGE

CIP	Title	Capacity	# of Competencies Addressed	Credits	Clock Hours	C (certificate) or A (degree)

Contact: Tim Cook, Division Chair, tcook@clark.edu

At present Clark does not have a paraeducator program. Students may enroll in two Introductory Ed classes (201 and 202) and other courses in an individually tailored program.

Clark is examining material on the continuing education activities offered by the ESD with a goal of reformulating the work into outcomes that can be assessed for the potential award of credit.

CIP	Title	Capacity	# of Competencies Addressed	Credits	Clock Hours	C (certificate) or A (degree)
13.1501	Paraeducator	20	12	103	1,755	A

Contact: Gerry Truman, 253.589.5710, gerry.Truman@cptc.edu

Program curriculum includes the 14 Washington State Core Competencies for Paraeducators. Students participate in work-based learning in community schools. All individuals must be fingerprinted and cleared by the State Patrol prior to community-based placement.

Included in this program are three academic courses in math, communications, and psychology (these are classes that typically transfer and could be applied to requirement for pre-teacher ed). This approximately five-quarter program meets daily, Monday through Friday, from 8:00 a.m. to 3:30 p.m.

Contact: Judy Cox, ECE / Paraeducator Coordinator, 509.547-0511 x2639, jcox@columbiabasin.edu

Our mission is to train paraeducators to effectively deliver educational services to students and capably assist certified/ licensed staff. The Paraeducation Program is an evening program that accommodates students who are either employed in local school districts or interested in becoming paraeducators. Students who want to continue in a teacher preparation program can work toward their CBC Associate of Arts and Science transfer degree.

Core Curriculum - 28 Credits

Credits	Course Number	Course Title	Core Competency
3	ED 101	Introduction to Education	1,2,4,7 or
3	ED 108	The Paraeducator in Schools	1,2,4,7
3	ED 104	Child Guidance & Communication Tech	6,11

Program Description This program is designed for educational assistants and instructional aides who desire to continue their education and improve and validate their skills and knowledge as Educational Paraprofessionals. The Educational Paraprofessional Certificate program is a contractual educational program, therefore students must be employed by a school district that has contracted with the EdCC Center for Life Long Learning to provide courses for their employees. The program of study acknowledges the diverse roles and responsibilities of today's educational assistants and involved high student participation and practical, immediately applicable information and strategies.

Contact: Ken White, kwhite@evcc.ctc.edu

http://www.evcc.ctc.edu/template.cfm?doc_id=450 Two-year career preparation program that provides a specified course of study to prepare students for employment with the public school districts as assistants to certified instructional staff. The curriculum involves courses that will teach students how to assist with large and small group instruction, individualized instruction, testing of students, keeping of records and preparation of classroom materials. These skills, combined with a strong academic and general core, as well as cooperative work experience course for hands-on training, make this a very strong program. An optional apprenticeship may be included in the technical core and elective portion of the program. This program is not designed for transfer to a university, though some of the courses may be transferable on a course-by-course basis.

Highline Community College. We have a an emphasis on special education service delivery and supporting English Language Learners. See the following link:
<http://flightline.highline.edu/cg/paraeducator.html>

The certificate and degree provide a comprehensive program including emphasis in reading, writing, mathematics instruction, observation, assessment and evaluation, functional analysis of behavior and positive behavioral support, and field based practica in k-12 settings. Curriculum is based on the Washington State Core Competencies for Paraeducators and the Washington State Skill Standards. Students learn the instructional roles and responsibilities of paraeducators and apply their learning in quality practicum settings with mentor paraeducators. Students who complete the program are well prepared to support the learning of the diverse student population in inclusive educational settings.

A Paraeducator Program is currently under development at this time. Outcomes will be based on the skill standards and competencies. Program will likely be designed for evening or weekend instruction. Some existing courses (ECE and other disciplines) will be utilized as well as new courses developed specifically to meet the needs of those working beyond 3rd grade.

Olympic has developed and plans to offer a Math for Elementary Teachers sequence - two 5-credit courses, (two quarter sequence) - up for approval in October.

Developing a similar or bridge class for paraeducators not requiring int. algebra, will be a discussion item in the paraeducator program development.

The Paraeducator Specialty Certificate offers those who work as aides and assistants to special populations to upgrade their skills. In addition to the core special education courses of the Early Childhood program, students complete two 3-credit classes and a five-credit field experience. It is possible in less than two years of part time study to achieve the 25 credits that earn this specialization.

This is a specialization that focuses upon providing effective educational services to exceptional learners throughout their lifespan. Most students who earn the Paraeducator Specialty Certificate are already employed as assistant teachers or aids with exceptional populations.

PROGRAM DESCRIPTION

The Education Programs are designed to provide students with the knowledge and skills necessary for employment in a variety of social service and governmental agencies. Based on personal and career interests, students may select one of the A.A.A.S. degree options: Childhood Education, Bilingual/Bicultural Education and Special Education. Shoreline also offer a Certificate of Proficiency program in Instructional Aide/Paraeducator.

The Certificate of Proficiency for Instructional Aides prepares graduates for employment as assistant teachers in public and private schools. Students learn about the social, emotional and intellectual development of young children as well as specific strategies for encouraging healthy development. Students also learn how to develop group activities, plan a curriculum and manage a classroom. Internships provide students with an opportunity to integrate classroom learning and gain valuable “hands-on” experience. In addition, students learn effective strategies for communicating with children and parents as well as ways to integrate computer technology into the classroom. The program can usually be completed in three or four quarters.

PROGRAM OUTCOMES

Students who successfully complete this program will be able to:

1. Assist early education teachers in the classrooms of public and private schools
2. Work positively with young children fostering their development, creativity and self-esteem.
3. Plan group activities and effectively manage a classroom.
4. Work with children developing normally as well as those with special needs in an age appropriate and culturally sensitive way.
5. Effectively communicate with children, parents, colleagues and educational administrators.

PROGRAM PREREQUISITES

Eng 100 (Analytical Reading and Writing) **or** ESL 100 (Academic ESL) or satisfactory ASSET test or ESL placement test score for Eng 101.

Math 070 (Preparation for Algebra) **or** satisfactory ASSET test score for Math 080 or 099

Students may pursue an Associates in Technical Arts Degree a one year certificate or earn electives to an AAUCT degree. The ATA degree covers the Washington State Core Competencies and Skill Standards for Paraeducators and meets the federal paraeducator requirements in the Elementary and Secondary Education Act of 2001. Many of the courses will transfer directly to WWU or other four-year institutions. Students may enter the program at the beginning of any quarter.

The education paraprofessional program provides theory and practice in the skills for working as effective members of instructional teams. The core curriculum focuses on current issues and historical foundations of regular and special education, instructional strategies, behavior management, human development and interpersonal skills in the context of a diverse society. Supervised practicum opportunities for hands-on experiences in schools are provided throughout this course of study. **A.A. Transfer Degree:** If you intend to transfer to a 4-year college to complete a teacher-training program leading to certification, you must follow the Associate of Arts degree. It is important to contact the intended transfer institution since prerequisites, transferability, and program requirements vary around the state.

A.A.S. Education Paraprofessional, General Education emphasis: Courses address the Washington State Core Competencies for Paraeducators and the Washington State Skill Standards. An education paraprofessional works under the supervision of a licensed/certificated staff member to assist and support educational services. The goal is to support learners experiencing delays and/or those who are learning English as well as typical students within a general education setting.

A.A. S. Education Paraprofessional, Special Education Emphasis: Courses include the core curriculum described above yet delve deeper into providing services for children identified with disabilities such as learning disabilities, emotional and behavioral disorders, and developmental disabilities.

A.A.S. Education Paraprofessional, Early Childhood Emphasis: Courses include the core curriculum described above and is intended to meet the needs of persons who wish to become paraeducators in K-3.

Certificate: This option may be most appropriate for those obtaining a degree in Early Childhood Education wishing to extend their knowledge of working with children with special needs. As of January 2002, new federal guidelines require most paraprofessionals in public K-12 schools to complete a two-year program.

Students who wish to obtain a Paraeducator/Early Childhood Certificate take core classes (39 credits), which are generally taught in the evening to meet the needs of working students. The certificate program can be completed in 18 months to two years. Students may also take additional ("non-core") general education and elective courses (90 credits total) to receive an Associate in Applied Sciences Degree. A student pursuing an Associate Degree can attend full-time and take core classes concurrently with non-core classes in order to receive the degree in two years. Built around a classic ECE core of courses
